Surrealism Projects
Surreal Photos (irrational, or unbelievable; like a dream)

Using the program Photoshop Elements, You will make a photo by taking several pictures and combing them into one by taking certain features... for example a planet, waves, mountains, sky, or person, fruit, water, fire. You will need to TURN IN 2 DIFFERENT PROJECTS and they should be completely DIFFERENT from each other.

Procedure:
1. Look on the internet and find some pictures that are rather "surreal." Use the link here, or Google surreal picture.

Find a photo that you want to change. Then think about the different ways you can change it by adding and morphing other pictures into it. You will then use selecting tools to either add or delete images from the picture, or morphing other pictures into the main picture.

2. It obviously won't look "real," but it should still be seamless and look professional.

Your Surreal Picture must include:

3 or more layers and SIZED 11" x 8.5" or 8.5" x 11":   ____/6

At least 3 pictures were used to create 1 picture   ____/9

ALL original pictures are available for comparison   ____/6

Originality and thought went into your project choice   ____/5

Quality of product:
Is the project seamless and clean?   ____/10

Use of class time:
Is the project difficult/ challenging? Did you use all of the time necessary to complete it?
          If it isn't, WHAT HAVE YOU BEEN DOING? Playing games???? Naughty.
          ____/10

          Total   ____/46 for each project
